SERVICES AND CAPABILITIES

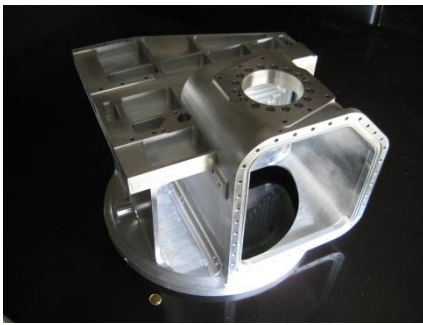

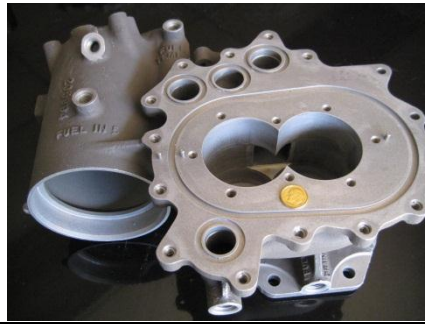

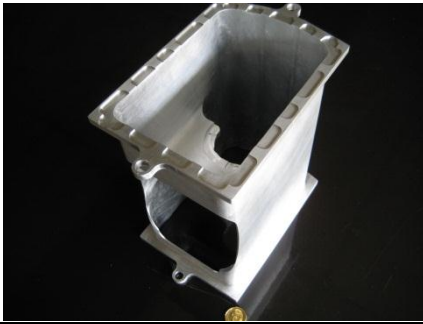

In our plant we have four CNC Turning Centers with bar feeders and five Vertical Multi Axis Milling Machining Centers. We have two Jig Borers and one Jig Grinder. We have a complete Tool Room equipped with manual lathes, mills, grinders and a deburring department. Our Quality Inspection lab has a CMM and is fully equipped to inspect any part and provide you the data you need. We have a fully integrated MRP System which we utilize for our day to day operations. Call anytime and we will have the necessary data available to provide you a precise update on progress and delivery.

JUST A FEW THINGS WE ARE COMMITTED TO

- Quality, Service, and Competitive Pricing
- Improving our 98% On Time Delivery
- We will make 1-1000 parts
- We will hold Tolerance to .00005"
- We will do Quick Turnarounds
- We will do Turnkey Mechanical Assemblies
- We will do Bonding and Fabrication
- We have the ability to read and translate most Cad formats

JUST A FEW OF THE THINGS WE MAKE

- Space to ground based high precision optical machined components
- Optical DT fixtures and Aspheric Aluminum Mirrors
- Aircraft landing gear components
- High precision Actuator Housings for Aircraft and Military applications
- Radar Array Antennas
- RF and Microwave components and Waveguides.
- Ordnance and Missile components
- Fixtures, Tooling, and Inspection Gages
- We machine almost any metal, shape and size, Casting, Forging, or Hogout

JUST A FEW OF OUR SATISFIED CUSTOMERS

- Boeing
- L3-Communications
- ATK Launch Systems
- Aeroflex Corporation
- Aerojet
- Aerospace Corporation
- Keller Technology Corporation
- DRS Sensors and Targeting
- Light Works Optics
- Lefiell Manufacturing
- Alliance Space Systems
- Raytheon Space and Airborne Systems
- NASA/JPL
- Cal Tech
- Department of Defense
- United Launch Alliance
- Sargent Controls and Aerospace
- Parker Hannifin Corporation
